Easy As Can Be -washing with Pearline. Just try it and see. None of the rub, rub, rub that made the old washboard hateful. None of the old washboard, either. Nothing but common sense washing of clothes, paint, dishes, anything in the housewith something that takes out the dirt, instead of making you rub it out. It's a big difference. There's a saving in the labor—but, besides that, here's a saving in the wear. Washing with acids and chemicals is easy, too-

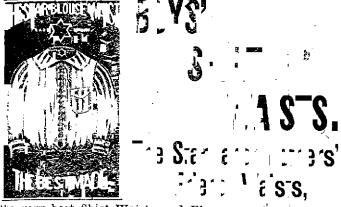

but it is at safe. Washing with Pearline is.

Peddlers and some inscriptions grocers will tell you "this is as good as" or "the same as Pearline." IT'S I Pearline is never peddled; if your grocer sends you an imitation, be honest—send it back.

The comrades of the Grand Army, with tender thoughtfulness, are striving to keep the memory of their dead comrades ever green by gathering the spring-time flowers to deck their graves, and place at their healst the flag they loved so well.

My sisters, wait not for their appeal for assistance—it is our privilege prized beyond words to express—let us in this simple way teach these heroes of ours, that the loyal women of America appreciate the valor of the Union soldiers, that their heroism and particitism and devotion are to her a source of pride and reverence, and with the same untiling devotion she gave to him in '6'-'05 she now, with willing hand and brave ourpose, anticipates his wishes, and culls the choicest flowers to breathe away their fragrance on the grave of some fallen comrade.

Gather the children together and tell them what Memorial Day means; why it should be kept sacred to our honored dead. Teach them the songs of patriotism, tell them the story of a nation free, and in their tender hearts a spark will be kindled which will glow through all the coming years.

Says the Brooklyr Standard-Union: The Connecticut Legislature has voted to require the National flag to be flow over every public schoolhouse in the State. Coming so soon after the spectacle of a special Presidential Commissioner gratuously and insolemtly hauling down the American flag in a place where it meant law and order and peace and safety, the action of Connecticut is significant. It is safe to say that the rising generation of little 'nutmegs' will not produce any Biounts- not Clevelands either.

The New York Tribune pertinently says: "The lynching of a muderer in Michigan is a most shocking and disgraceful affair. Such a wanton defiance of law and order caves no room for doubt as to the duty of the offic als charged with the execution of the laws of the State. Apparently there will be little difficulty in identifying the leaders of the mob and the men who took un act ve part in the lynching, and they should be brought to justice." Let the Michigan authorities act promptly and vigorously a the matter, and they can teach all would-be law breakers in their State a lesson that will not soon be for-

The Richmond Desputch calls for a liberal display of the rebel flag, that odlour emblem of treason, on the occasion of the removal of the body of the President of the lost cause. It assigns as a particular reason for the appearance of the flag that there will be thousands of strangers here then" and they should be "forced to say that whatever Richmond undertakes to do she does well." Any reference to this event as calculated to arouse the old spirit of secression is regarded as an unpardonable offence, but surely the thouands of strangers who are in town at that time will not be inspired with a high degree of confidence in Southern love of the t sion by such a display of a flag the only ible signification of which is that it is representative of a slave-holder's rebellion o throttle the Union.

There will be a wide-spread feeling of sympathy for ex-Secretary Foster in this time of business nistortune. He embarked in a number of enterprises, which have not turned out successfully, all of which had for their object, besides personof Rain, the building up of Fostoria. To H. N. FAIRBANKS, - General Agent, the site of this town Mr. Foster was taken in early youth by his father, when the region was a wilderness, and there he has lived and prospered, making a good deal of money in various undertakings, and developing the whole region, until it was among the most flourishing in the State of Ohio. In his statement to the public he courageously declares his intention of beginning his business life over again, and of trying to pay all his debts in full. In this effort he will have the best wishes of a very large number of the American peopic, who always have regard for a couragrous, enterprising man, especially when overtaken by misfortune.

The remarkable report made by Assistant Attorney-General Colby, who copducted the investigation into alleged irregducted the investigation into alleged irregularities in the Weather Bureau has called forth the following from Professor Harrington to the President: ularities in the Weather Bureau has Harrington to the President:

Harrington to the President:
To the President:
To the President of the United States,
Sir: Recently charges were preferred against me relating to my management of the Weather Bureau of the Department of Agriculture. An investigation of these charges was made by order of the Secretary of Agriculture, which investigation was conducted by Assistant Attorney-General Colby. A copy of his report was delivered to me yeaterday. That report is a wilful and melicions faisification of the testimony taken in this case. For reasons which will appear later it would be usuless for me to demand al hearing of my defence from the Secretary of Agriculture. As I was appointed to my present office by the Pressut of the United States, it is to him that I apply for the fair hearing without which mo one should be condemned. I respectfully request Mr. fresident, that you will bear me, and that you will order a copy of the said testimony to be delivered to me for use in the preparation of my defence. Very respectfully your obedient servant,

MARK W. HARILINGTON,
Chief of Weather Bureau.

To everybody who had followed the

To everybody who had followed the testimany taken during the investigation Mr. Colby's report was a profound surprise, as it undoubtedly will be to President Cleveland if he takes the trouble to look into the matter. Whether Mr. Colby was guilty of "wilful and malicious falsileation of the testimony or not, it cartainly strikes every impartial mind that he has exhibited a blas which renders his conclusions of no value whatever. He has made exactly such a report as a man would make who had received orders to convict and had obeyed them to the

The Cleveland Programme. Washington despatches assert that President Cleve and has decided 'on four points in his message to Congress, which indicate the policy of his administration. First-An income tax

Second—Repeal of the 10 per cent. tax Repeal of the Sherman act. Fourth—Modification of the Tariff act. This policy was indicated a few days ago by Hon. Benton McMillin, the probable leader of the next House. The Congressman expressed own preference as between an income and of raising revenue. Mr. Cleveland did not agree with him, and an income tax

that the Law Court which has been sitting

with much pleasure by the friends of the project and Mayor Beal was the recipient of congratulations. It is understood that the court decides against each separate contention in the complainants' bill of equity, holding that under the statute of 1873 towns and cities may take, hold and receive moneys given in trust according to the purposes of the statute and that they are responsible for

such funds in whatever way they are held or invested. Mayor Beal in conversation with a WHIG representative said that building matters will now be pushed so that a start may be made as soon as possible. Contracts will soon be made and the present City Hall will, be immediately moved to the lot upposite. Work upon the foundation can be begun before the moving takes place and it is only a matter of time before Bangor has a handsome and commodious City Hall.

THIS TREATMENT IS A SURE CURE FOR

No injurious results from the treatment, which will be strictly confidential if desired. The cure has been thoroughly examined and received

unqualifled approval of prominent physicians, professional and business men in the city of New York. Especially has it received the endorsement of Rev. A. F. Schauffler, D. D., and the late Col. Elliott F. Shepard, of the Mail and Express. It has met with brilliant success throughout the West, also in many portions of the East, including Maine, espec-

ially in Rockland, where it has the unqualified endorsement of the best citizens. An Institute will be opened shortly, of which due no-

tice will be given. All communications held as confidential.

NK-AVS - YEGE MBLE COMPOUND

Is a positive cure for all those painful Ailments of Women. It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Uncertainn, Falling and Displacements, of the Womb; and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. Every time it will cure Backache.

It has cured more cases of Lencor-rhosa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That Bearing-down Feeling causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circum-stances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes

Irregularity, uppressed or Painful Menstruations, leakness of the Stomach, Indirection, loating, Flooding, Nervous Prostra-on, Headache, General Debility. Also Dizziness, Faintness,

Womb Troubles. The whole story, however, is told in fillustrated book entitled "Gulde to lealth," by Mrs. Pinkham. It conains over so pages of most important aformation, which every woman, marted or single, should know about herall. Sond 2 two-cent stamps for it. For **Kidney Complaints**
